

How to Write a Graphic Novel

STEP 1 WRITING THE STORY

First you need to come up with your story.

Keep it simple at first. You can always add more later.

Think about:

- Genre (Horror, Realistic Fiction, Autobiography/Memoir, Fantasy)
- Characters
- Setting
- Conflict/Solution
- Beginning/Ending

For your characters think about:

- How they know each other.
- How they feel about each other.
- Where they are.
- What is happening around them.
- What is happening between them.

Think about the different parts of your story. When do things happen?

<p>Beginning: Conflict and characters are introduced</p>	<p>Middle: All of the excitement!</p>	<p>End: Wrap up the story. How is everything resolved? How have your characters changed?</p>
