

## Virtual scavenger hunt

Below are your choices for the Scavenger Hunt. You may use these resources that are available in the Library References section of Clever:

As this is a Scavenger Hunt, you ***do not*** need to complete these ***in order***. You may choose where to start, **but we are going to look at all of these over the next couple of weeks.**

To track what you've done, write the following on your device or your own paper:

- Write which number you are working on.
  - Write the title of the article/video.
  - Write the author (if the name is given).
  - Write the date the article/video was published (if it is given).
  - Write where you found the article/video (Gale, Discovery Education, World Book, or Brain Pop).
- \*\*\*HINT: Most of this can be found by looking for the **Citation information!**\*\*\*
- Write down 2-3 facts that you learned. (Note – we are not doing a RESEARCH PROJECT. **We are just finding a few interesting facts and moving on.**)

1. Find a resource about the American revolution
2. Find a resource about snow leopards
3. Find a resource about a tardigrade
